

YOUNITED CREDIT raises €40 million to accelerate its european expansion and reinforce its technological leadership

- *Brings the total amount of equity raised since launch to €103 million.*
- *Welcomes Bpifrance, the French Public Investment Bank, as a shareholder.*

Paris, September 19th 2017 – YOUNITED CREDIT, the leading online consumer lending platform in Continental Europe, has announced a capital increase of €40 million subscribed by its historical shareholders Eurazeo, Crédit Mutuel Arkéa, AG2R La Mondiale and Weber Investissements, as well as new investors, including Bpifrance, Matmut Innovation and Zencap Asset Management.

Bpifrance, the French Public Investment Bank, is acting through its Large Venture hub, its entity dedicated to investing in innovative, hypergrowth firms with significant capital requirements, which already invested in flagship French scaleups such as Sigfox, Devialet or Talend (Nasdaq: TLND).

The French insurer Matmut Group is also involved through Matmut Innovation, its entity dedicated to investments and financing of actors offering technological innovation linked to the insurance value chain.

Today's announcement brings the total amount of equity capital raised by YOUNITED CREDIT to €103 million since its launch.

This new fundraising will be used to accelerate YOUNITED CREDIT's European expansion and allow it to further invest in data science, credit scoring and the development of proprietary technologies.

Further to its launch on the Italian and the Spanish markets in 2016 and 2017 respectively, the company aims at growing its Net Banking Income by in excesss of 100% in 2017. A major milestone was reached in Q2 2017 with over €500m of originated loans since inception, of which €250m in the last twelve months.

Since late 2016, the company generates a positive contribution margin, through a pricing policy tailored to its categories of borrowers, as well as the introduction of smaller loan amounts (€1000 to €3000) which now account for 40% of the total loan originations on the platform. On this smaller amount segment, YOUNITED CREDIT APRs are highly competitive and offer the best alternative to revolving credits and credit card debts.

Charles Egly and Geoffroy Guigou, co-founders of YOUNITED CREDIT and respectively CEO & COO said: *"Theses successes, the continued support of our shareholders and the arrival of Bpifrance allow us to pursue our international expansion : we are already working on launching new countries to consolidate our leadership in Continental Europe.*

Bpifrance's experience in accelerating startups internationally will be extremely positive. We are delighted that our mission to make the banking industry more transparent and simple is recognized as a matter of general interest".

This new fundraising will be used to accelerate the development of new products. YOUNITED CREDIT was first in France to launch an 100% online process for all its borrowers (new and current, with or without co-borrowers). Customer service agents are now reachable via FacebookMessenger and Whatsapp, and the company is accelerating R&D in AI. Finally, YOUNITED CREDIT has developed APIs to make its services available to partners (online and neo-banks, mobile operators, insurers) wishing to launch their own loan business while benefiting from YOUNITED CREDIT's proprietary technologies. Among the 190 staff in Paris, Rome and Barcelona, 60 are dedicated to data science and engineering.

Donald Bryden, Chairman of the Supervisory Board of YOUNITED CREDIT added : *"This new capital increase, subscribed by new and historical shareholders represents a major step forward for the company. It reaffirms the confidence of investors in the strength of YOUNITED CREDIT, as well as its ability to adapt to different European markets. Careful selection of clients, while using most recent risk analysis technologies, geographic expansion in high profitability countries and the latest hirings within the management committee, are set to create high value for both new and historical shareholders".*

"We were attracted by YOUNITED CREDIT's team and by its unique positioning built in Europe. Its innovative digital plateform model, great product agility thanks to big data, as well as its solid regulatory strategy, inspire confidence and sustainability. This important investment is a natural continuation of Large Venture's (Bpifrance's growth hub) investments activities, and contributes to the emergence of a leader in its market. We are thrilled to accompany the team in its European expansion plan which aims at reinventing the banking business" said Paul-François Fournier, Chief Innovation Executive of Bpifrance.
